

Everyone thinks; Let's think together!

- What is the future vision of the airport? How do people feel there?
- Who can you count on in development? Is there a team or person to help with this?
- How did they live there?
- What do you think you can show? What have you shown so far?
- What do you think about moving forward? What have you done so far? What has been accomplished?
- How do you imagine the future of DZ?
- What tools do you have to get more people to come to you?
- How much do you think a big event would boost the life of the Drop-zone, or if a world champion team trained here?
- Can you show me what life is like for you for 1 week?

What is the level of communication?

- We show you a future that you don't even see yet
- Time passes, skydiving is becoming more and more popular.
- Age and technology are progressing, rising along with the needs. We create content in order to show the life that is good to be in, that can be planned.
- This team has been working for years to show a vision of the future and a vision of life.
- We contribute our professional knowledge and technique, and even come to you if necessary!
- We want to do it at as many Dropzones as possible, that's our goal. And it will work! Do you want to be in it?
- We dare to work with such responsibility for everyone because we have a past and a future.
- The demand is alive!
- There is no message, no feeling, no life in the current content!
- Our goal is for DZ to be able to tell what it can offer paratroopers. All this without e-mailing!
- The interested party does not want to read, does not want to click on the website, he wants to know as many details as possible in order to make a decision. How do you know where you're going?
- We'll go and travel if we have to show that we believe in the project.

It's good that every DZ is different because there won't be 2 similar films. We emphasize the features of the place and the product advantages. In terms of quality, these films will be the same: professional. Later, if you don't have one, it will be the differentiator.

When will it pay off?

- If we do it! This is our profession. (ref.)
- Video with no message VS Film with a message
- The GoPro is not enough here
- Film for years, photo actual pictures of life. Usage rights: All Inclusive

Werk Film - It shows that you put energy into this! You spent it showing what the airport can do.

WE WANT TO SPEAK WITH THE OWNER

What do you want more of? :

- tandem
- competition
- boogie
- training camp
- athletes

The idea, and the storyboard are ours, the product is yours.

We work with our own team.

Do You have a
good DropZone?
Who knows about it?
